1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group II, Claims 15-17, and 29-34, drawn to a communication system for compressing and decompressing messages, classified in Class 709/204.

Group III, Claims 24-26, drawn to creating a compression dictionary, classified in Class 707/101.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. 5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

6. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

7. Applicant is reminded that upon cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. & 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least on claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. & 1.48(b) and by the fee required under 37 C.F.R. & 1.17(h).
